

# Packing Checklist

## Loreto Kayaking Adventure

---

You will be responsible for bringing your own personal gear and equipment while communal equipment (tents, food, cooking implements, etc.) will be provided. This gear list contains suggested recommended and optional items for your adventure.

A time-tested packing hack for multi-day expeditions is to bring two main sets of clothing:

**Daytime active/paddling layers:** These items are guaranteed to get dirty, salty and sweaty. They will remain with you (on you, or in your kayak) during the day.

**Nighttime basecamp/chill-out clothes:** Upon arrival in camp, you can change out of your paddling gear into clean, dry camp clothes.

As your mother would say: Check the local forecast and pack accordingly! We recommend avoiding cotton or denim as they doesn't wick away moisture or dry quickly. Choose merino wool, polyester (fleece) or quick-dry items instead. Your local outdoor outfitter can help you select the best options for you!

## Required Items

---

### Daytime Active/Paddling Clothing

- 1 shell jacket (waterproof + windproof—a jacket with a hood and pit zippers is best)
- 1 lightweight fleece or merino wool sweater
- 1 or 2 long sleeve paddling shirt (look for shirts with UVA/UVB protection)
- 2 quick-dry shorts or capris or zip-off pants

- 1 or 2 bras
- Underwear
- 1 or 2 swimsuits
- 1 brimmed hat (to reduce sun exposure)
- Sunglasses (with strap or leash in case you have an unexpected wet exit!)

### Luggage Logistics

---

Checked luggage on airplanes can get lost or delayed. Be sure to wear the items that are most essential (hiking shoes, hiking pants, quick-dry shirt) for your adventure and pack additional necessary items in your carry-on (medications, camera, paperwork, waterproof jacket, swimsuit). If your bag doesn't arrive, could you get by with what you are wearing?

As a general rule, don't bring more than you can carry! This will help ensure smooth-as-pudding transfers in airports, through customs, hotels, and loading vans/trailers/boats. Luggage space in vehicles is limited. Please use a duffle bag

or other soft-sided luggage option that is a reasonable size. Your daypack can serve as second piece of luggage or carry-on.

Due to the nature of this trip we would suggest placing the following items in a daypack, ready for the first night: sleeping bag, pajamas, flashlight, toiletries, meds, water bottle, change of clothes for next day, swimsuit, towel, sanitizer and face masks).

You will be able to leave extra luggage at the hotel or our partner's office while on the kayaking expedition. Luggage will be secured but we advise to not leave any valuables.

## Resources for Buying Outdoor Gear & Clothing

---

- Mountain Equipment Co-op, REI, SAIL, Atmosphere, Sportchek
- Borrow: Why buy when you can borrow from a friend?
- Variety/Value Village, Goodwill, Salvation Army and online swap sites are also great places to find second-hand gear for a fraction of the price.
