

Packing Checklist

Moab National Parks Active Adventure

Come prepared for all kinds of weather! Choose dual-purpose, lightweight clothing that you can efficiently layer. Merino wool and synthetic fabrics like polar fleece are recommended over anything cotton or denim for their quick-drying and sweat-wicking capabilities.

If you're not sure what any of the items in the packing list are, please ask us or your nearest outdoor outfitter. We want you to be Girl Scout-prepared for your adventure ahead!

Hot tip: Before your trip, become well-acquainted with your gear—especially your hiking boots, poles (if desired) and backpack. Wear your day pack on training hikes and gradually increase the weight that you are carrying so when you strike off on day one, your pack feels snug like your favourite pair of jeans!

Packing Notes

Luggage Logistics

Prepare for lost or delayed luggage by wearing or carrying on the items that are essential to your expedition (like your hiking boots and fleece!). When packing your carry-on try to include what you would need to be comfortable for your first few days in case your checked baggage is misrouted by the airline (rain gear, medications, itinerary, snacks, change of socks/underwear).

As a general rule, don't bring more than you can carry! This will help ensure smooth-as-pudding transfers in airports, through customs, hotels, and loading vans/trailers/boats. On adventure travel trips it is best to travel with one larger check-in bag and one carry-on bag. Most airlines have reduced the weight maximums for checked bags to 50lbs (22kg). Be sure to check with your airline for weight restrictions **and** carry-on allowances.

We recommend soft-sided luggage or a medium duffle bag or backpack of 30-50L(your checked bag) and a medium daypack of 20L(your carry-on bag) for most adventures.

- Borrow: Why buy when you can borrow from a friend?
- Variety/Value Village, Goodwill, Salvation Army and online swap sites are also great places to find second-hand gear for a fraction of the price.
